

# Parking Supply

**TDM MEASURE:**

The Development Project shall provide off-street private vehicular parking (Accessory Parking) in an amount no greater than the off-street parking rate for the neighborhood (neighborhood parking rate), based on the transportation analysis zone for the project site. For non-residential uses (land use categories A, B, and D), the neighborhood parking rate is shown in the non-residential neighborhood parking rate map and spreadsheet. For residential uses (land use category C), the neighborhood parking rate is shown in the residential neighborhood parking rate map and spreadsheet. The neighborhood parking rates may be updated over time to reflect refined estimates, but shall not be higher than the rates established at the time of TDM Ordinance adoption. The property owner shall be subject to the neighborhood parking rates established at the time of project approval.

**DEVELOPMENT REVIEW:** The property owner shall submit plans showing the proposed number of parking spaces and the spatial layout of the parking, including means of ingress/egress. In the project description, the property owner shall describe any planned components that may increase the capacity of the parking facility (e.g., by providing valet parking or installing mechanical parking systems). City staff will compare the amount of proposed parking to the parking rate in that neighborhood to confirm the Development Project's point allocation under this measure. City staff will also review the parking facilities to confirm that use of the facility would not create hazards for persons using other modes of transportation.

---

**PRE-OCCUPANCY MONITORING AND REPORTING:** The TDM coordinator shall facilitate a site inspection by Planning Department staff to verify that the project meets the standards specified in the project approvals, and that the configuration of the vehicular parking (including ingress/egress) does not create hazards.

Additionally, City staff shall provide the TDM coordinator with a copy of the approved TDM Plan. The TDM coordinator will provide City staff with a signed letter agreeing to distribute the TDM Plan via new employee packets, tenant lease documents, and/or deeds.

---

**ONGOING MONITORING AND REPORTING:** The property owner shall submit photographs of the parking facilities. City Staff shall verify that the project continues to meet the standards specified in the Development Project's approvals, and that the configuration of the vehicular parking (including ingress/egress) does not create hazards.. City staff will perform one site visit every three years to verify that the project continues to meet the standards specified in the project approvals.
